

QUIET DOOR OPTION

Amarr Classica® Northampton design with Madiera windows in True White

38%* QUIETER

Nylon sleeve & push nut shown installed on the roller stem in the roller carrier.

Enjoy peace and quiet. The opening and closing of your garage door no longer has to be loud and disruptive. The Amarr Quiet Door Option† reduces door operation noise of steel garage doors by up to 38%*. That's the same noise reduction as going from the sound of a vacuum cleaner to the sound of a running shower.

*Varies by door model. †Not recommended for use with 16 ga hinges.
